contact@ma-mascotte.com

Instructions for use :

1. Connect the battery to the blower system and place it in the space provided for.

2. Put the fan as a backpack with the harness.

3. Connect the sheath of the inflatable mascot (located on the inside of the mascot) to the output of the blower using gallons fixed on the sheath, ensure that it is secure.

4. Enter inside the inflatable mascot through the zipper.
5. Close the zipper so that the mascot can inflate.
6. Turn the blower with the switch (located between the battery and the blower).
7. Your mascot will be inflated in seconds.
